David held several technical positions in the areas of drilling and production in his 29 years with the Energy Resources Conservation Board (ERCB) . In his last five years at the ERCB he lead the Board's Appropriate Dispute Resolution program.

Since leaving the ERCB David has formed his own consulting practice. His areas of work involve, providing regulatory advice to parties including oil companies and landowners around the application process, conducting training in both technical oil and gas topics as well as conflict management, and he is active in facilitating and mediating in a variety of areas.

David is a past director of the Alberta Arbitration and Mediation Society and has significant experience in adult education.
