**Technical Feedback Period Extended for Five Reports Regarding
Reservoir Containment at Shallow Steam-Assisted Gravity Drainage
Schemes**

The Alberta Energy Regulator (AER) received the attached request from the Canadian Association of Petroleum Producers for an extension to the September 26, 2014 deadline for feedback on five reports, which provide a technical basis for establishing regulatory requirements for the shallow thermal area of the Wabiskaw-McMurray deposit in the Athabasca Oil Sands Area.

The AER has reviewed the request and is granting the extension, with feedback now accepted until January 9, 2015.
