

Application for Gas-Oil Ratio (GOR) Penalty Relief Form O-33

This form is to be used for smaller, less complex pools only. For detailed application requirements, see Directive 0*65*, Unit 3: Production Control. A covering letter should state the reason GOR Penalty Relief is being requested and should be made on behalf of all operators in the pool.

Application for Gas-Oil Ratio (GOR) Penalty Relief, page 2 Geology Discuss the potential for further pool development. **Recompletion Potential** Comment on recompletion potential or any measures taken to reduce gas production. **Enhanced Recovery Potential** Impact on Primary Oil Recovery Correlative Rights — Include an up-to-date map showing lessee and lessor ownership. (Note: If pool is multiwell and of mixed ownership, concurrence in writing is required from all operators.)
